Subject Telephone Record: Lawrence Stone re: Hecla Pond 2
Inspection

TELEPHONE CONVERSATION RECORD: Lawrence Snow, representative for Shivwits Band of the
Paiute Tribe

October 25, 2004

The purpose of my telephone call with Mr. Lawrence Snow was to inform him that I would not be completing an inspection of the Hecla Pond #2 closure activities on October 27-28, 2004 due to rainy weather conditions. I informed Mr. Snow that the inspection would be re-scheduled (probably within the next week or two, weather providing) and I would like to meet with him on-site. Mr. Snow stated that he would try to meet with me whenever I re-scheduled the inspection.

I asked Mr. Snow if he knew of anyone else that should be receiving information regarding the Hecla Pond #2 closure. Mr. Snow stated that Tara Marlowe, Paiute Indian Tribe, in addition to himself and Glenn Rogers, should also receive any relevant materials.
